CORAVIN

At Angelo's Cabarita, we are delighted to offer our guests an exceptional wine experience with the innovative Coravin system. This cutting-edge technology allows us to serve wines by the glass without ever pulling the cork. With Coravin, we can ensure each glass is as fresh and flavourful as if the bottle had just been opened.

What sets Coravin apart is its ability to preserve the quality of the wine. A thin, non-coring needle passes through the cork to access the wine, allowing us to pour it without exposing the rest of the bottle to air. This means the wine remains perfectly preserved, maintaining its character and complexity for future servings. This system not only enhances the quality of each glass but also allows us to offer a broader range of high-end wines by the glass. You can explore rare and exquisite wines with us, each served in its optimal state.

This innovative approach aligns with our dedication to providing a unique dining experience, where you can enjoy a perfect match of wine and Italian cuisine against the beautiful backdrop of Sydney's bayside at every visit.

LEGACY

Delve into the rarities of our Wine Museum at Angelo's Cabarita, an exclusive collection curated by Ross Anderson, celebrated director of the Global Fine Wine Challenge.

This exceptional selection comprises wines aged to perfection, sourced from suppliers who employ meticulous storage practices in climate-controlled Sydney vaults.

A wine museum, by its nature, features vintages of extraordinary pedigree and limited availability, each carefully preserved under ideal conditions. We invite connoisseurs to savor these unparalleled wines, available in extremely limited quantities, making each bottle a treasure to be experienced.
